**FOR IMMEDIATE RELEASE**

**18 July 2024**

## **ANNOUNCEMENT OF SEA ASIA 2025 DATES**

Informa Markets is pleased to announce that Sea Asia 2025 will now be held from 25 - 27 March 2025 at Marina Bay Sands, Singapore instead of 8 - 10 April 2025.

Organised in partnership with the Singapore Maritime Foundation, the biennial Sea Asia is Asia's anchor maritime and offshore event and has been hosted in Singapore for 20 years. After a record setting 2023 edition, the 2025 event is poised to sell out and attract an even larger audience of 20,000 participants from 90+ countries alongside 10 national pavilions and 500+ exhibitors.

Sea Asia is the region's top marketplace for sourcing products and services, as well as accessing premier thought leadership content for the Maritime ecosystem. In response to feedback from our exhibitors and industry partners, the 2025 dates have been aligned to create a more streamlined experience to better serve the industry.

"Our decision to organise Sea Asia during the Singapore Maritime Week comes at a time when partnerships and collaboration within the industry are critical. We feel it will be a better outcome for the industry by congregating the global industry within the same week." said Andrew Williams, Executive Vice President Informa Markets and President of Maritime Vertical.

Tan Beng Tee, Executive Director, Singapore Maritime Foundation said "Singapore Maritime Foundation is supportive of this move to change Sea Asia dates. We look forward to welcoming the global maritime industry to our shores for a week full of business and social activities."

### **About Sea Asia**

Organised by Informa Markets and Singapore Maritime Foundation, Sea Asia is recognised globally as the leading platform for the maritime industry to interact, explore business opportunities, hear the latest insights, and source new products and services.

Since its inception in 2007, Sea Asia has grown exponentially to position itself as the leading maritime business event in Asia for industry players seeking to establish a footprint by penetrating the dynamic and growing port centred in Singapore.
